Q12 What reservations would you have with parking on someone else's private property?

A risk of falling out with that person if we are friends

access, safety,

Being there without permission

Car being damaged

Consent

Inconvenience and distance

Intrusion

None

7

Permission

Proximity, open air, security

Safety for me and cover for my car

Security

4

The ramifications of doing so - cost, the person's thoughts then actions in regards to regulations and costs, not to mention their needs for their space (destruction to their property, etc.).

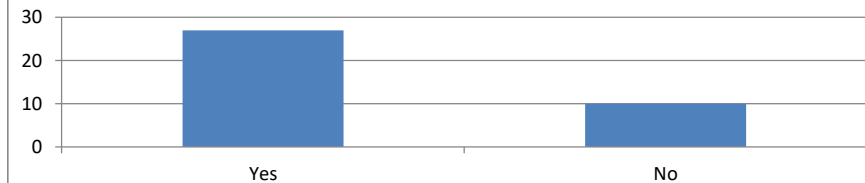

They may vandalise my car, steal my belongings, make it hard to leave.

Wide enough driveway for entry and exit

Would you drive more frequently if you didn't have to find a park (i.e. get directed right to a free space)?

Q15 Do you have any comments about this section of the survey?

Yes	7
No	2

I always have to drive to work and to study. I pay sometimes for work parking and always for study parking.

I would drive more frequently to other events if I didn't have to find a park, especially in high demand areas like Brisbane City, Burleigh, Southport etc

Thank you for opportunity

Currently my daily parking is paid by another organisation

No

If you could have a secure spot and no one else could take it but you it would relieve the stress out of looking for a park before work or recreational activities esp in the city.

No

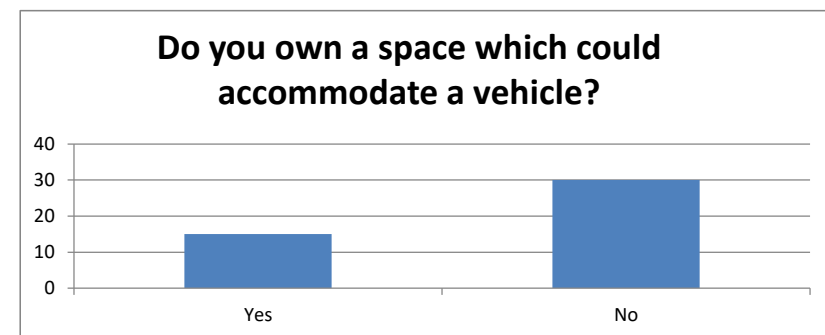

I would drive more frequently if I was knew i'd be directed to a park, however if I knew that the free space was very far away from my destination, then I would search for alternatives such as public transport. That is, the reason to drive is inconvenience.

However if the degree to which the free space is inconvenient is higher than the inconvenience of public transport, then I will take public transport over it.

Would not drive more frequently if it was easier to park, as I don't mind walking to my destination.

It's sounding like an interesting idea

Q17 What would incentivise you to rent that space out to other members of the community?

Money 4

How much I'd get in rent

I wouldn't

A very good reason of requirement and realistically financial benefit.

Monetray payment or trade of favours.

I'm not allowed to rent that space out

Q18 What concerns would you have in renting that space out to other members of the community?

I have a company vehicle and this would be against company policy

None

If it would be available when I needed it

My grandchildrens safety playing in yard

its shared space already

Their abuts to the space and perhaps conflict and contention.

Being occupied when you return from work and need it yourself

Is it worth it

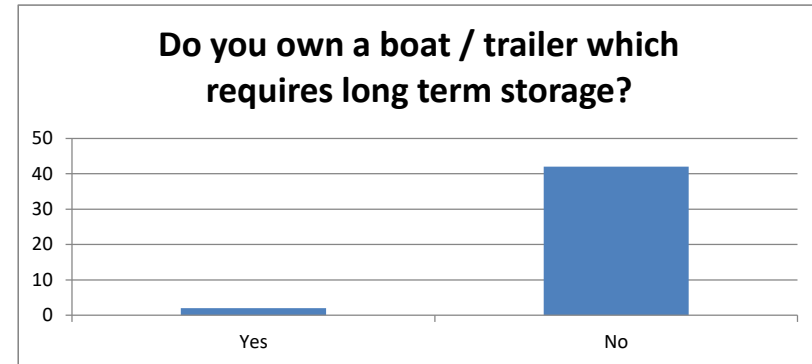

No trust or confidence that community client would respect my requests about the space, not having flexibility to say when my space is available, conflict with the client, the effort involve in asking for payment in-person, debt-collection is client did not pay up, client being rude or unpleasant.

The space I have is in a public car park subsidised by a company security
